

HOW TO USE THE LIE/LOVE DETECTOR

INSERT REGULAR PENLITE BATTERY (not included) IN TESTER. MAKE SURE BATTERY IS FRESH.

ONE PERSON: 1. Turn switch to "on."

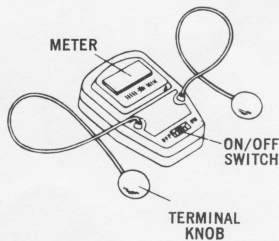

2. Hold one terminal knob in the palm of each hand.
3. Meter will indicate "STRENGTH OF LOVE ABILITY" or in the case of use as a Lie Detector, under the galvanic technique, when person is asked to reply to a "truth-type" question, the needle will be lower when the truth is told, higher when a lie is told.

COUPLES: 1. Turn switch to "on."

2. Each person holds one of the terminal knobs in the palm of one hand. Then hold hands, or make physical contact, with the other. Do not touch your other hand holding the terminal knob since meter will not read correctly.
3. Meter indicates the "STRENGTH OF LOVE FOR EACH OTHER."

HAVE FUN! THE "LOVE TESTER" IS FOR ENTERTAINMENT PURPOSES ONLY!

SECRET! If you want the needle to really climb, moisten palm before holding terminal.

HOW TO REPLACE BATTERY

1. Unscrew bolt on back of meter and remove panel.
2. Insert fresh penlite battery.
